## **Sell Your Inspected Slot Machine(s)**

After we have fixed your slot machine, and you decide to sell it, we are glad to assist you.

Sell your machine after we have inspected/repaired it. We will list your slot machine(s) at no cost. We simply need a high-resolution photo of both the interior and exterior of the machine you wish to sell. If there is more than one machine you wish to sell, we will gladly list it as well.

We cannot guarantee a "quick" sale. Your machine will be listed fairly quickly: our site will maintain a photo for a buyer to click on and to see a complete description of this slot machine. This selling process can be lengthy.

Please be patient. (Note: we do **not** negotiate prices between buyer and seller. We merely list the slot machine as a courtesy. You, as the seller, must make any other arrangements such as packing/shipping/transporting with the buyer. Our repair warranty for the machine being sold is **not** transferable to a new owner and will not apply. We can only vouch for the machine's playability at the time of repair at the slot machine's original location before its sale, packing and transport.)
